

VALDEMAR GERZAIN MAGAÑA NICOLÁS

SOFTWARE ENGINEER

PERSONAL PROFILE

I am a proactive, responsible and committed person with my work, I like to do things well and with quality, doing my personal goals and common objectives with my collaborators.

Lover of web development and always ready to learn new things and technologies that help me expand my technical and professional knowledge.

I like collaborative and team work, where each one contributes to achieve a greater goal.

WORK EXPERIENCE

Freelance Front-End Web Developer

Personal Projects | August 2016 - Present

- I have developed personal web projects that help me improve my skills as a front-end programmer, making use of the main web technologies (HTML, CSS and JS), as well as frameworks (Bootstrap) and preprocessors (Sass)
- Layout, redesign and updating of websites with old and obsolete designs.
- I have used APIs for the consumption and presentation of data and information dynamically.
- I use of "Balsamiq mockups" for the generation of the wireframes
